

Undergraduate Placements - Software Developer

Attractive Salary, Bonus and Benefits

Advanced Expert Systems Limited (AES) are a developer and supplier of software and services for the NHS Healthcare IT market. As part of our expansion plans a number of exciting opportunities have arisen and we are seeking to recruit undergraduate placement students to be based at our Head Office in Derby.

This is a great opportunity to join a successful team where you will have the opportunity to work with some excellent developers and gain experience of the full lifecycle of software development. This position will see you working across projects both large and small within a friendly and supportive environment.

The ideal candidate will have a keen interest in IT and computers with a passion for software development.

Salary range £14-18K depending upon skills and experience plus benefits. Training will be provided.
